EXR-7

INTERACTIVE ARRANGER

Super Tones Expandability Interactive Performance

Roland unveils the crown jewel of the EXR series

The EXR-7 Interactive Arranger extends the reputation and performance features found in Roland's popular EXR-5/3 keyboards and features a 76-note professional keyboard, new high-quality sounds, FLASH memory for adding new songs and styles, and more.

Whether you're a professional player, serious enthusiast, or someone who plays purely for enjoyment, the EXR-7 lets you take your music and your performance to new levels.

- 76-note keyboard, with Roland's new high-quality keyboard action that responds accurately to the most subtle nuance.
- 510 tones, 21 Super Tones (including two types of stereo-sampled piano), 20 Drum Kits.
- More than 100 "live feel" music styles which can be edited using the orchestrator feature.
- 1.5 MB of built-in Flash memory and USB port for adding new songs or styles easily.
- Cover function for instant re-orchestration of music styles and songs.
- 100 user programs and over 100 music assistants.
- 16-track recorder with "minus-one" playback function for education purposes.
- PIANO mode with chord recognition across the entire keyboard.
- Onboard D-Beam enables unique expressive control over EXR-7 sounds during live performance.

EXR-7

INTERACTIVE ARRANGER

The EXR-7 really lets you stretch

If you're looking to "stretch out" with your music, the EXR-7 is the perfect keyboard for you. The keys feature Roland's new high-quality keyboard action which responds faithfully to subtle nuances and up-tempo passages. The new Piano Mode Chord Recognition feature recognises chords in the full 76-key range, which frees your left and right hand to play a natural piano-type performance across the 76 keys with accompaniment.

Featuring new high-quality tones

The EXR-7 extends the EXR Series' powerful sound engine and variety of tones to new levels of expression. Two different types of Roland's acclaimed stereo piano samples are included, along with 21 new high-quality sounds with realistic nuances and voicing characteristics, including Attack Flute, Blow Alto Sax, Harmonica Hand, Jazz Guitar and French Musette, to name a few.

The perfect all-rounder

The EXR-7 packs a wide variety of sounds and more than 100 "live feel" music styles and functions into a user-friendly design. The EXR-7 has 100 user programs for storing your favourite panel settings, while the music assistant allows easy access to over 100 ready-to-use settings from the beginning. The minus-one feature provides instant karaoke or a great tool for practising the left and right-hand parts of pieces separately. Roland's D-Beam controller is included for real-time control over your performance. Using the

High-quality built-in speaker system for full range output

The EXR-7's built-in powerful full-range speaker system is designed to reproduce the keyboard's high-quality sounds accurately. The low-end output delivers maximum punch, incorporating Roland's Digital Bass Enhancer technology and Bass Reflex system.

Stay connected – keep in touch

With the built-in USB port, you can quickly exchange song or style data between the EXR's internal Flash memory and your PC. No need to install a driver – once connected, your Interactive Arranger automatically appears as an external hard disk on your PC's desktop. The EXR-7 also provides a floppy drive for added flexibility, plus V-LINK capabilities which allow you to manipulate video footages while you're playing.

on-board 16-track sequencer you can even compose your own music and save it to the internal Flash memory or floppy disk.

Meet the family

Other products in the EXR range include the EXR-5 which is available with 61 keys and a floppy drive, and the EXR-3, which has the same features as the EXR-5 minus the floppy drive and with a smaller amp/speaker system.
