

EXR-40 OR

AN EXCITING NEW ORIENTAL KEYBOARD FROM ROLAND

A host of high-quality sounds, a vast collection of live-feel styles created by masters of oriental music, unique professional features, advanced User Program functionality, and an elegant, professional look.

The EXR-40 OR is the most complete oriental keyboard on the market today.

- High-class 64-voice polyphonic sound engine with plenty of oriental instrument and rhythm sounds
- 200 User Programs with advanced features for live applications
- Unique Lock function with 5 dedicated buttons
- 4MB of internal Flash memory for musical expandability
- USB for data exchange with a computer and MIDI communication
- Huge collection of oriental/international Styles

Lots of Delicious Oriental Flavors

The 64-voice polyphonic sound engine provides 571 Panel tones (compatible with GM2, GS and XG lite), including a plenty of oriental instruments, and instant Layer/Split capability via dedicated buttons. Twenty-six Drum Sets cover all major genres of oriental and western music. Though already stunning as they are, those sounds and Drum Sets can be enhanced further with a digital multi-effects processor (47 types) as well as reverb (8 types) and chorus (8 types effects).

Massive and Expandable Musical Contents

The EXR-40 OR comes with a huge number of Roland-grade Music Styles that cover a vast range of oriental and western genres. The factory ROM section contains 99 Music Styles, another 99 Styles are provided in the 4MB Flash memory area. That area still has ample room for additional Styles you can load from floppy disk, or copy from your computer's hard disk.

Unique Features for Professional Performance

LOCK function

To support true realtime performance for oriental music, 10 "Lock" functions can be enabled/disabled using dedicated buttons below the display.

LOCK Function table		
Button	Single Click	Double Click
1	Style	Band Orchestrator
2	Tone (Main & Dual)	Tone (Main & Dual) User Tones
3	Tempo	Tempo
4	Transpose	Transpose/Oriental Scale
5	Mono/Portament (Main)	Mono/Portamento (Main, Dual)

USER TONE Selection

The EXR-40 OR allows you to assign frequently-used sounds to 8 USER TONES buttons. Those assignments are User Program parameters and can therefore change with each User Program you select, if need be.

Other Features

- USB for file exchange and MIDI transfer
- 10W + 10W, two full-range 13 cm speakers with bass reflex system and Digital Bass Enhancer
- 12 Scale Tuning buttons, plus 3 dedicated memory selection buttons for realtime scale changes
- One Touch settings: each Style has two different One Touch settings
- Orchestrator: each Style has three different Orchestrator levels (Drum&Bass, Combo, Full Band)
- Music Assistant: 126 registration settings for popular tunes can be selected via the MUSIC ASSISTANT button
- Floppy Disk drive to load and save your data
- 16-track sequencer and metronome
