

## Saving Love

The Ready To Play Style “Saving Love” is based on an Easy Listening Pop Slow Rock Style and made for playing the Song “Saving all my Love for you” by Michael Masser, performed by Withney Houston. “Saving Love” should be easy to play, with the typical Electric Piano Sounds of that time.

I started by selecting the Internal Style Natural Pop and went into the Style Make Up Tools for changing some sounds and for adjusting levels to suit the modified sound texture.

Every Sound can be equalized for keeping the Style transparent.

From there I set the focus on the Melody Sounds.

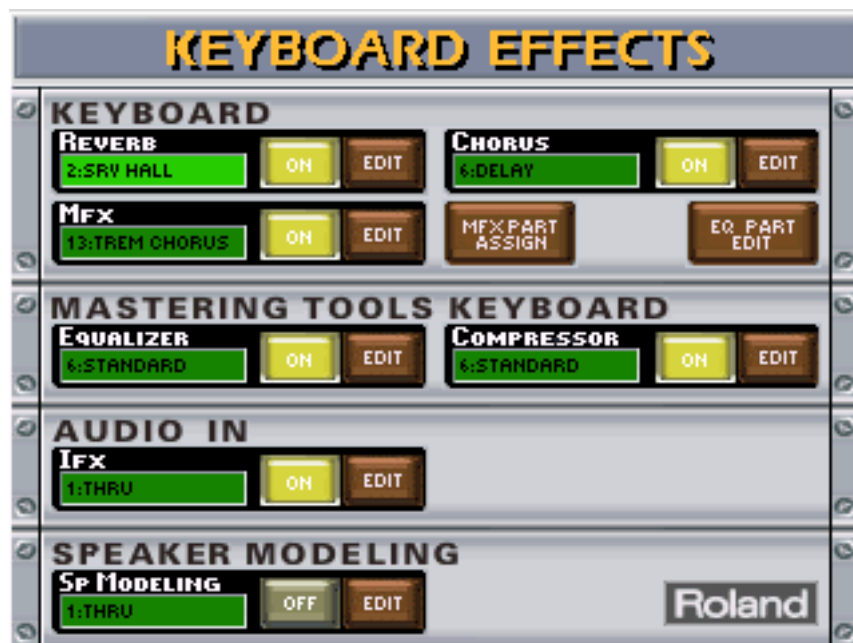

Here we have a FM Electric Piano layered with a Bell Synth Sound (Music Assistant MA), an Rhodes Type E-Piano (OTP1), s Saxophone with a smooth Delay Effect (OTP2), a Pop Electric Piano (OTP3) and Electric Pianos layered with a Synth Pad Sound (OTP4).

Now, the most important parts in creating high quality Registration Data begin:

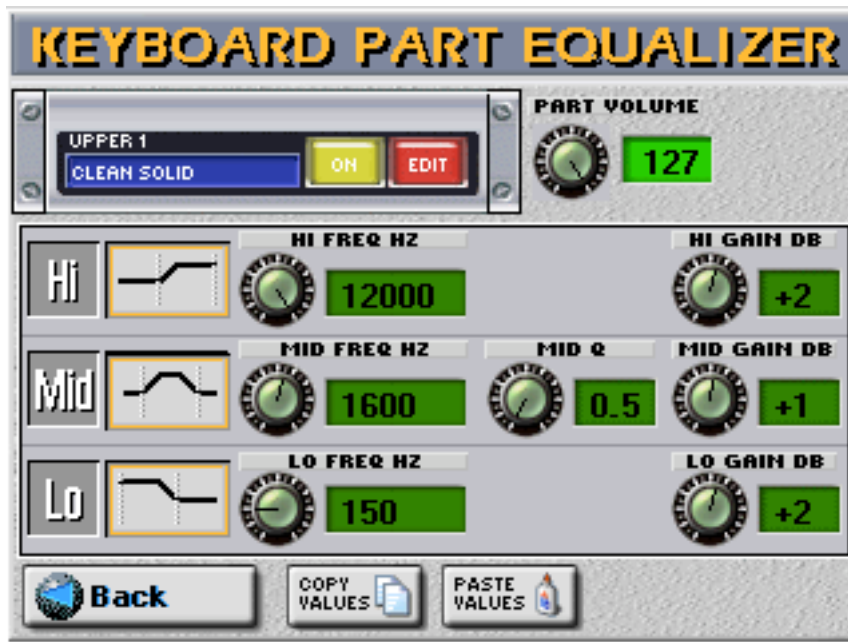

The Mixing.

The selection and adjustment of nice Effects like Reverb, Chorus, Delay, etc ...

For the final adjustment I even used the individual Part Equalizer. This helps keeping the Sound transparent, clear and still warm and gentle.

You can hear the result by listening to the mp3 Sound Example.

I hope you enjoy playing with my RTP Styles as much as I do.

Yours sincerely  
Ralf Schink
